

## **DATA SHEET**

### **POLYPROPYLENE BAGS**

|                          |                                                                                                                                                                                                                                                                                                                                              |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| SECTOR OF USE            | IT IS USED FOR VARIOUS TYPES OF MATERIALS AND COUNTLESS SECTORS: MINING, CHEMICAL, PLASTIC, FOOD, ECOLOGY                                                                                                                                                                                                                                    |
| CERTIFICATION            | DECLARATIONS OF FOOD SUITABILITY –<br>IN COMPLIANCE WITH THE EU REGULATIONS CURRENTLY IN FORCE, ALL KUKU MATERIALS AND ARTICLES ARE PRODUCED IN ACCORDANCE WITH GOOD MANUFACTURING PRACTICES AND, UNDER NORMAL OR FORESEEABLE CONDITIONS OF USE, MUST NOT TRANSFER COMPONENTS TO FOOD IN QUANTITIES THAT CONSTITUTE A DANGER TO HUMAN HEALTH |
| MATERIAL                 | POLYPROPYLENE (PP)                                                                                                                                                                                                                                                                                                                           |
| AVAILABLE COLORS         | WHITE<br>OR COLORED FABRIC ON REQUEST                                                                                                                                                                                                                                                                                                        |
| DIMENSIONS               | 35 X 50, 35 X 60, 45 X 75, 50 X 80, 50 X 90, 50 X 100, 56 X 96, 55 X 100, 60 X 90, 60 X 110, 60 X 120, 70 X 120<br>OTHERS ON REQUEST                                                                                                                                                                                                         |
| CAPACITY                 | 10 KG<br>20 KG<br>25 KG<br>50 KG<br>AND MORE, DEPENDING ON THE PRODUCT                                                                                                                                                                                                                                                                       |
| CUSTOMIZATION            | PRINTING UP TO 4 FRONT AND BACK COLORS                                                                                                                                                                                                                                                                                                       |
| BELLOWS                  | WHITE OR TRANSPARENT (5 – 7 – 10 CM)                                                                                                                                                                                                                                                                                                         |
| SACK MOUTH               | FOLDED AND SEWN, HEAT-SEALED HEM, CUT IN COLD (LAMINATED PP BAG)                                                                                                                                                                                                                                                                             |
| GRAMMINGS                | FROM 62 TO 80 GR/SQM DEPENDING ON USE                                                                                                                                                                                                                                                                                                        |
| OPTION                   | COATED, MICRO-HOLES, FOR AUTOMATIC MACHINES                                                                                                                                                                                                                                                                                                  |
| PALLET DIMENSIONS        | 100 X 120 CM                                                                                                                                                                                                                                                                                                                                 |
| CONSERVATION AND STORAGE | STORE THE PRODUCT IN A DRY, CLEAN ENVIRONMENT, UNDER STORAGE CONDITIONS WHICH PREVENT DEFORMATION, AWAY FROM HEAT SOURCES AND AWAY FROM DIRECT SUNLIGHT                                                                                                                                                                                      |
